Ingenious Scenarios

Inspinia allows end-users to create their own scenarios according to the daily schedule without any programming skills or integrator's help. Just enter scenarios page on your touch-panel and start creating them. With scenario it's possible to define initial state of controllers, set alarm, status and create single-time or weekly schedules to run.

Mobile Control

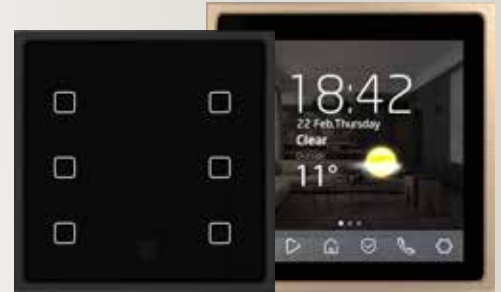

The INSPINIA mobile app allows users to control all functions of the INSPINIA Panel remotely by simply scanning a QR code and pairing the devices. The app provides access to essential features such as home automation, security, camera monitoring, scenarios, intercom, and all other functions available on the touch panel.

Functions & Overview

Keypad & 4" Touch Panel

- 4" IPS CTP
- 1 Digital Input
1 Digital Output
- POE Ethernet
- 1x Extension Add-On Ports

4" Retrofit Touch Panel

- 4" IPS CTP
- Ambient Light (Side RGB Leds)
- 2x 1W Speaker
- 2x Mems Microphone
- Haptic Feedback
- Temperature Sensor
- Humidity Sensor
- 2.4 GHz Antenna

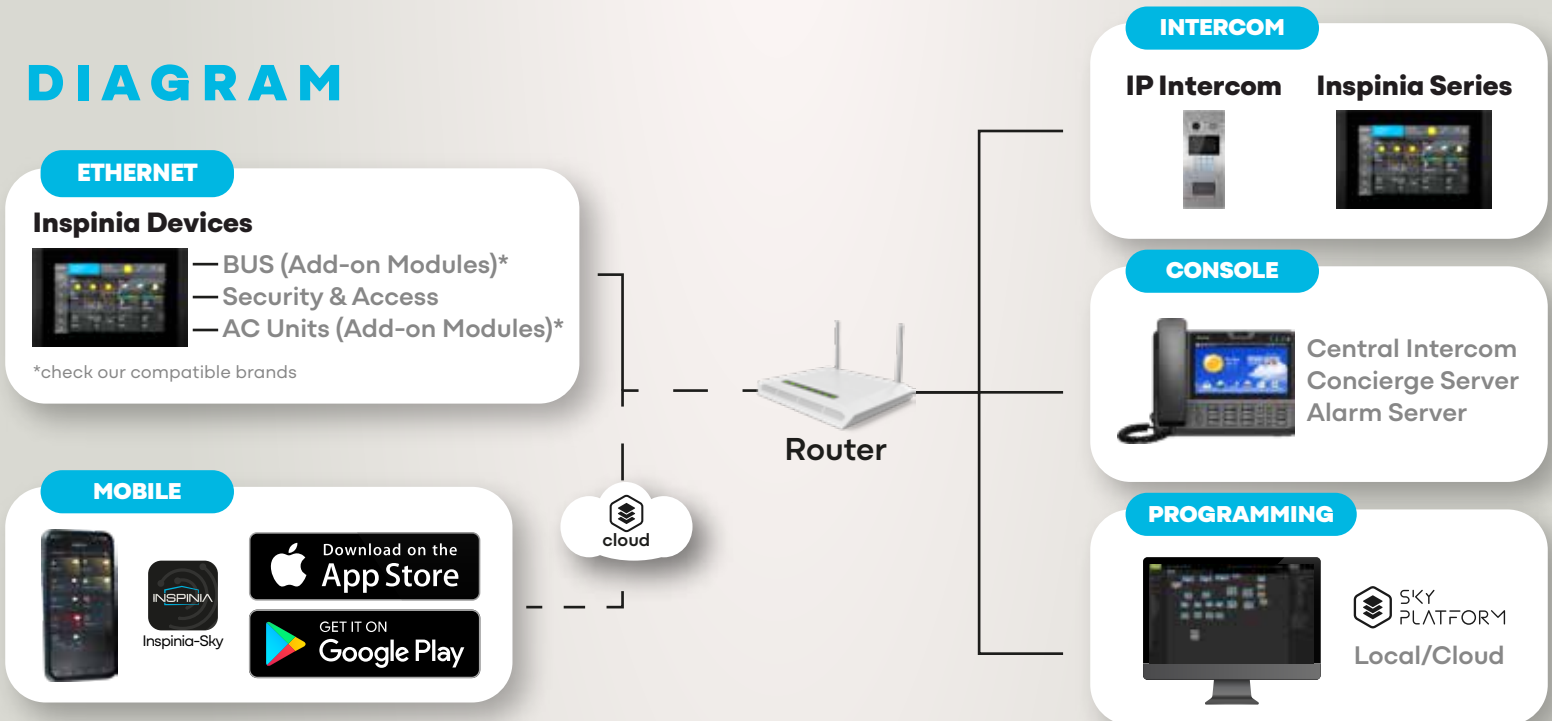

Touch Panels 8" & 10"

- 5 Point Multi Touch
- POE Gigabit Ethernet
- 2x 2W Speakers
- Temperature Sensor
- Humidity Sensor
- Microphone
- 5x Digital Input
2x Digital Output
- 2x Extension Add-On Ports
- 2.4 GHz Antenna

Compatible AC Systems

About Us

INSPINIA Technology is a leader in smart home and building automation, offering cutting-edge solutions that enhance comfort, security, and energy efficiency. We specialize in designing user-friendly products such as touch panels, gateways, servers, and add-ons for seamless integration with AC Systems and BUS protocols. Our mission is to improve everyday living and working environments by providing intuitive, reliable technology that empowers users to control and automate various functions from one central platform. Committed to innovation and customer satisfaction, INSPINIA sets the standard for excellence in smart automation worldwide.
