

Sky Platform

**Comprehensive
Device Management**

**Advanced Data
Handling**

**Seamless
Integration**

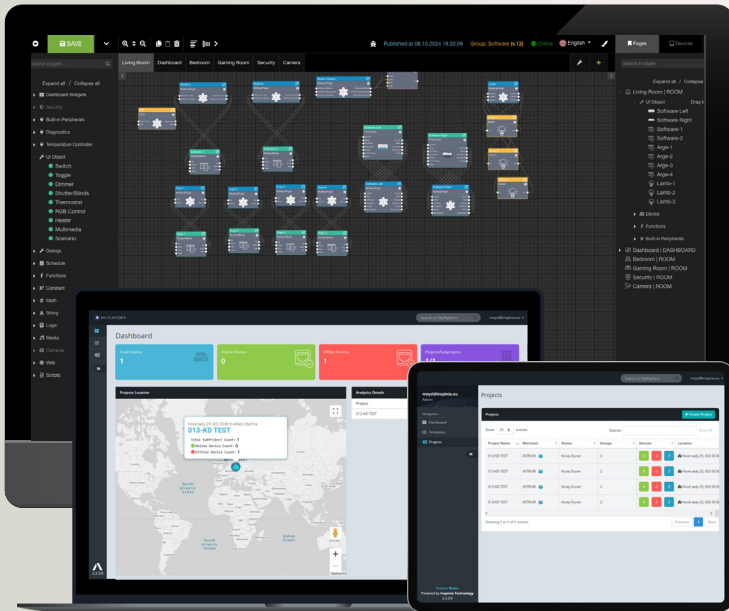

Your Gateway to Seamless Smart Control

SkyPlatform offers real-time access to system data and analytics through an intuitive interface, allowing for remote monitoring and control by connecting to the cloud.

Supporting protocols like KNX, BACnet, Modbus, and more the platform ensures smooth communication between all subsystems, simplifying integration and management.

Connecting Systems for Smarter Management

SkyPlatform is fully compatible with INSPINIA's range of smart devices, including the Touch Panels (INS4, INS8, INS10) and the Mini Server (MNSRV). This compatibility transforms SkyPlatform into a centralized hub for building automation, offering users intuitive and efficient control over a wide variety of systems. By connecting these devices, users can manage lighting, climate, and other smart solutions through a single, unified interface.

Functions & Overview

Sky Platform

- 

Online configuration and programming devices
- 

Always up-to-date software with flow based programming
- 

Live monitoring of products and connected devices
- 

Analysis of collected data and detailed reports
- 

Multiple device configuration and programming
- 

Data collection from devices with filtering and importance criteria
- 

Import/export configuration files and parameters
- 

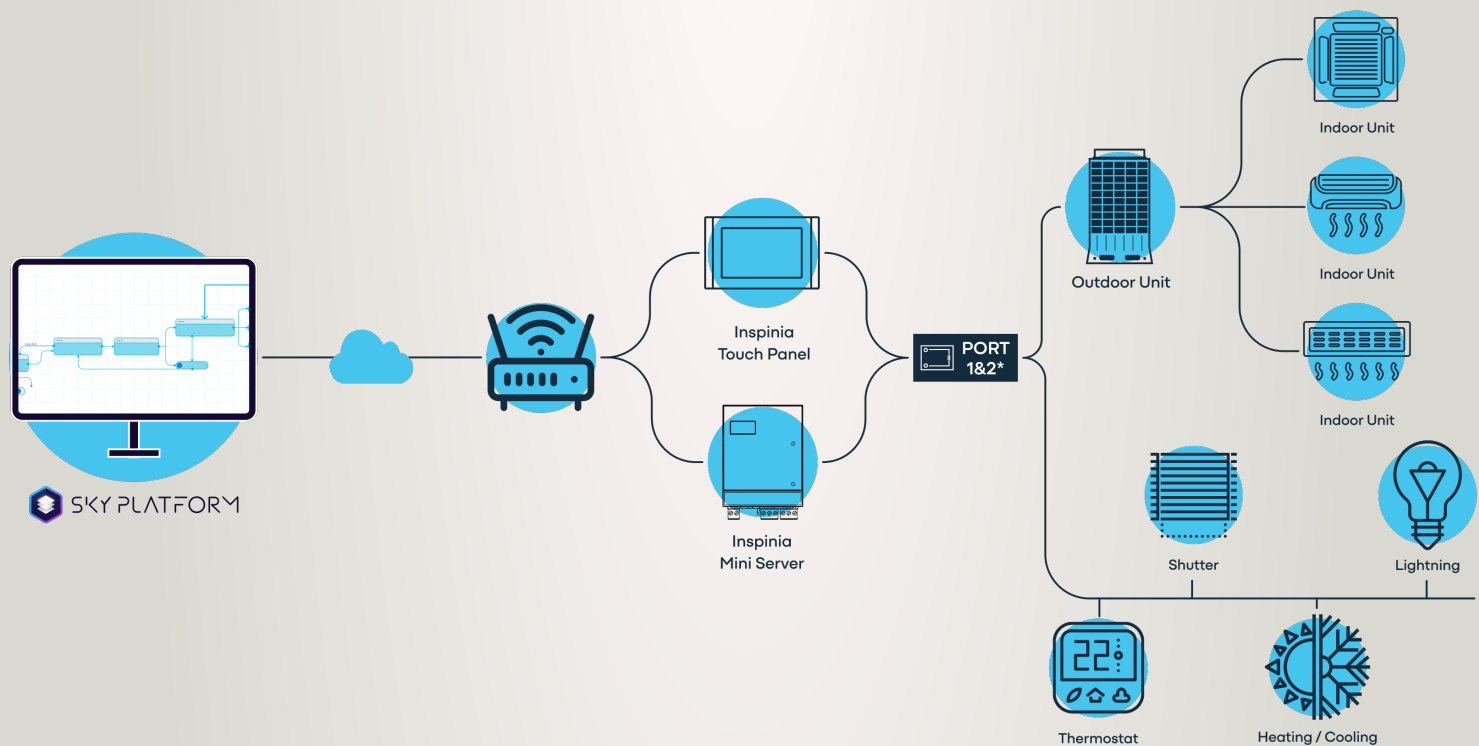

Project sharing with SkyPlatform users

Real-Time Monitoring and Proactive Control

Stay updated in real-time with SkyPlatform's cloud-based monitoring, providing continuous insights into the status and performance of your devices and products. The platform enables users to track system operations, identify potential issues, and optimize performance from any location with an internet connection.

About Us

INSPINIA Technology is a leader in smart home and building automation, offering cutting-edge solutions that enhance comfort, security, and energy efficiency. We specialize in designing user-friendly products such as touch panels, gateways, servers, and add-ons for seamless integration with AC Systems and BUS protocols. Our mission is to improve everyday living and working environments by providing intuitive, reliable technology that empowers users to control and automate various functions from one central platform. Committed to innovation and customer satisfaction, INSPINIA sets the standard for excellence in smart automation worldwide.
